Resident Officers.

J. W. BABCOCK, M. D.,
Physician and Superintendent.
J. L. THOMPSON, M. D.,
First Assistant Physician.
E. B. SAUNDERS, M. D.,
Second Assistant Physician.
H. H. GRIFFIN, M. D.,
Third Assistant Physician.
W. E. FULMER, M. D.,
Fourth Assistant Physician.
J. W. BUNCH,
Treasurer-Secretary of the Board, and Steward.

Non-Resident Officers.

R. G. BLACKBURN, M. D.,
Pathologist.
E. M. WHALEY, M. D.,
Oculist and Aurist.
L. L. TOOLE, D. D. S.,
Dentist.
W. H. WYLIE,
Overseer, State Park.
C. W. BISHOP,
Policeman, State Park.

Supervisors.

Miss Fanny Irwin,
Miss W. E. Quarles,
J. W. Austin,
P. T. Brown.

Miss Hertell, Dietitian.

REPORT OF THE REGENTS.

To His Excellency, Cole L. Blease, Governor.

Sir: The Board of Regents of the State Hospital for the Insane have the honor to present herewith the nineteenth annual report of the institution, for the year 1913.

COLUMBIA LAND.

A great deal has been said about the disposition of the farming land in and adjoining the city of Columbia, now held by the Regents. We submit it is for the Legislature in their wisdom to pass upon the advisability of disposing of it. However, it may not be amiss to inform you that the receipts from the operation of this farm are not at all commensurate with the value of this land, and with the State Park Farm now under our management this city farm is not an absolute necessity to the Institution. In this connection we offer the suggestion that if the Legislature decides to sell it, or, as Mr. Long, of Aiken, proposes, lease it on the ground rent basis, for a long term, it be done only to *bona fide* homebuilders, on easy terms and under proper restrictions, in small lots suitable for homes, and it not be offered or sold to be exploited by the speculator. It seems to us this plan could be adopted to the material advantage of the State, and carried out successfully by either the Sinking Fund Commission or the Board of Regents. We do not think any disposition of the grounds or buildings now in the enclosure of this Institution should be considered in the near future, as we believe the present plant will be needed for the proper care of those unfortunates having claims upon the State for several years to come.

STATE PARK.

We are of the opinion that it was a wise move to purchase this property, and advocate the gradual removal of the inmates from the city.

We urge that separate colonies be established for the different types of insane, and we concur in the modern idea that each building make provision for not less than 50 nor more than 150 patients.

This would make for the proper classification and care of the various types of insane.

INEBRIATES.

Some more proper disposition for the inebriates should be made, than their housing with the insane. We, therefore, urge the establishment of a colony at State Park for their proper care and treatment.

During the past year purchases for the Hospital have been made according to the following Act:

No. 144.

AN ACT TO REQUIRE ALL SUPPLIES FOR CERTAIN STATE INSTITUTIONS TO BE PURCHASED IN OPEN MARKET AFTER DUE ADVERTISEMENT.

SECTION 1. PURCHASE OF SUPPLIES FOR STATE HOSPITAL FOR INSANE AND PENITENTLARY.—*Be it enacted* by the General Assembly of the State of South Carolina, That on and after approval of this Act, all regular supplies for the State Hospital for the Insane, the State Penitentiary and the Confederate Home shall be purchased in the open market in the following manner, to wit: The officers now authorized to purchase said supplies shall duly advertise, in one or more daily papers, once a week for three consecutive weeks, for bids to furnish said supplies for a period of three months.

SEC. 2. BIDS.—That all bids shall be opened publicly by said officers, who shall accept the best and lowest bid made for the furnishing of said supplies.

SEC. 3. SUCCESSFUL BIDDER TO ENTER INTO CONTRACT.—The successful bidder shall enter into an agreement or contract to furnish said supplies at such times during said three months as he may be directed by the said officers, and shall give a good and sufficient bond in the sum of double the amount of said bid, conditioned for the faithful performance of said contract. The said bond shall be in favor of the State, and shall be collected as other bonds of such nature are now collected.

SEC. 4. INCONSISTENT ACTS REPEALED.—That all Acts or parts of Acts inconsistent with this Act are hereby repealed.

SEC. 5. IMMEDIATELY EFFECTIVE.—This Act shall go into effect immediately on approval by the Governor.

* * *

This Act was presented to the Governor the 28th day of February, A. D. 1913, and was not returned by him to the House in

which it originated within three days, the General Assembly being in session.—CODE COMMISSIONER.

The following changes have taken place during the past year on the Board of Regents and on the Medical Staff of the Institution:

Mr. F. H. Dominick resigned March 3d, and Dr. W. L. Settlemeyer was appointed in his place.

Capt. Iredell Jones resigned on December 15th, and Mr. Jas. A. Summersett was appointed to fill the vacancy.

July 1st was assigned for the election of members of the Medical Staff, and other officers of the Hospital. The result was as follows:

Dr. R. G. Blackburn, Pathologist.

Dr. J. L. Thompson, First Assistant Physician.

Dr. E. B. Saunders, Second Assistant Physician.

Dr. H. H. Griffin, Third Assistant Physician.

Dr. W. E. Fulmer, Fourth Assistant Physician.

Dr. L. L. Toole, Dentist.

On December 12th Capt. J. W. Bunch was re-elected Secretary and Treasurer, and Mr. Harry Wylie Superintendent of the farm at State Park.

FINANCIAL.

After careful consideration of the needs for the coming year, our Board begs to present the following estimate of expenses. It will be noted that the first item named is a deficit of \$14,024.28. This may be accounted for by reference to our estimates of last year, when we asked for \$275,000 for maintenance.

The General Assembly saw fit to appropriate \$260,000 for this purpose, thus cutting short this item \$15,000 under our estimate.

Deficit	\$ 14,024 28
Maintenance	300,000 00
Improvements and Repairs.....	20,000 00
Regents	1,500 00
Fire Protection.....	500 00
Amusements	800 00
Dentist	1,000 00
Pathologist	1,500 00
Oculist	500 00
Dietitian	600 00
Insurance for three years.....	7,000 00
Ice Plant.....	10,000 00

Improvements on Parker Bldg.....	10,000 00
Improvements in Laundry.....	1,000 00
Maintenance at State Park Farm.....	15,000 00
	<hr/>
	\$383,424 28

The estimate for maintenance is \$25,000.00 higher than our estimate of last year. The estimate is based upon the probable increase in population and the effort being made on the part of the Regents year by year, to improve the several departments which are included in this item.

The Board feels that with a prospect of removing patients during the coming year to State Park, the cost of maintenance will be much increased by the several colonies there.

It is absolutely necessary, in the opinion of the Board, to keep up the improvement and repairs in the Institution, hence the sum of \$20,000.00 is requested.

For Regents' expense we find the item of \$1,500.00 is necessary, judging by the experience of the past year.

The item for fire protection, amusements, laundry, remain the same as asked for last year.

The three-year term of fire insurance policy expires on March 1st of this year, and will require renewal; for this purpose the sum of \$7,000.00 will be necessary. For several years our Board has recommended the installation of an ice plant, but this appropriation has never been granted.

Last year our bills for ice amounted to nearly \$3,000.00, and each year this is a constantly growing item of expense. In connection with an ice making plant, we would be able by a refrigerating process, to better handle our milk, meat, and other perishable supplies, With a growing colony in the country an ice plant in town, owned by the State, becomes a real necessity.

The Parker Building was built under stress of rigid economy, and has never been brought up to the standard of the rest of the Institution. To put this building in sanitary condition will require \$10,000 at least.

For several years our Board has managed the farming operations at State Park. Each year we find that these farms become more valuable. In view of the possible change of our farming operations in Columbia, it is highly important that the several farms at State Park be brought up to a high standard of productiveness.

Thanking your Excellency for the interest you have taken in the affairs of the Institution during the past year, we remain,

Respectfully,

T. R. CARUTHERS, President;

W. L. SETTLEMAYER,

J. D. BIVENS,

J. A. SUMMERSETT,

J. H. TAYLOR,

Board of Regents.

SUPERINTENDENT'S REPORT.

To the Board of Regents.

Gentlemen: This is the centennial year of the Asylum. According to the records, in the fall of 1813, Samuel Farrow "projected the establishment of a lunatic asylum." It took Col. Farrow, however, eight years—until 1821—to secure an Act of the Legislature creating such an institution. It required six years longer to erect the first building, and the first patient was admitted in December, 1828. These are far off events. But they deserve commemoration, and can we not learn a lesson from them today?

An English traveler, Captain Basil Hall, wrote in 1828 about our Asylum: "This establishment is really a splendid instance of the public spirit which the Americans delight to evince whenever a beneficent object is fairly put before them. Party spirit is for the time annihilated and the only struggle seems to be, who shall be foremost in the work of charity."

Again, is there not here a lesson for all of us? In administering the affairs of the State Hospital today, do we not sometimes forget that we are concerned in directing the greatest charity in the State? Within these walls the questions should not be one of race or creed, party or faction. In this Hospital it has been and is a question of the broadest charity for all who need its protection. That at least has always been the well defined policy of South Carolina. After the investigation four years ago the State began to acquire a large tract of territory six miles in the country, north of the old institution. Here, again, development has seemingly been slow. This, I believe, has been largely due to the fact that a definite policy for the old and the new institutions have not been presented before you and through you before the State officials and the General Assembly. For this it may be that I am largely responsible. It is time, therefore, that there may be no question about my personal views upon this important matter—and from my point of view the most important subject to be brought this winter before the Legislature and people of South Carolina—I beg leave to submit what I deem to be the best and right policy for the State to follow in regard to its mental defectives.

Of the insane proper there are two great classes: the acute and the chronic. The treatment of these classes should be different. The

acutely insane require hospital treatment; while the chronic need custodial care. Today, therefore, we find a great tendency to place the first class in psychopathic hospitals, where every means is provided for preventing the development of the chronic and incurable condition. This is the attitude of modern science. According to the latest conception of State's duty to its acute mental patients, South Carolina should have in Columbia a completely equipped set of hospital buildings for the reception and treatment of curable cases. You may call it the psychopathic hospital if you like to be up to date in your nomenclature. But the main thing is to have here near the city such an institution and make it what it ought to be. The buildings you have can be remodeled. So that the cost of this plan will not be so great, and the State will not be called upon to abandon its million dollar investment in buildings. The State Park site, then, should be developed and serve for many years for your second or chronic class of patients. In this newly acquired country site the State of South Carolina has the opportunity of developing one of the most notable country colonies for the insane in the United States. This opportunity should be seized upon and advantageously developed.

The twenty-five hundred acres now held by the State at and near State Park should provide ample care, occupation, and natural advantages for the great number of the permanently damaged mental cases and defectives that the State will have to provide for.

There is nothing new about this policy, so far as I am concerned. It is practically the scheme which I have long advocated and published ten years ago in the centennial edition of the *News and Courier*, and in the report of 1904, which was repeated in Watson's *Handbook of South Carolina* in 1907, and again repeated in the report of the Regents in 1909, with few changes and additions. Some of these suggestions were:

1. That it has become the policy of the State to maintain in Columbia a large central colony for insane of both races.
2. That "State care" is a better system than was afforded by the old method of county support.
3. That the separate or cottage plan of buildings or of wards is better suited in our climate for the needs of the insane than are large conglomerate buildings.
4. That the separation of the insane (properly speaking) of such classes as the inebriates, idiots, epileptics, etc., who are now associated with them would prove advantageously to all.

5. That the improvement of the county almshouses by having hospital wards, etc., would relieve this institution from receiving so many helpless dotards.

6. The establishment of a farm colony for epileptics, a school for the feeble-minded, and a hospital for inebriates, should form a part of the future policy of the State.

7. That the erection of separate wards for the violent insane is desirable.

8. That the establishment of a farm colony for the chronic insane is an important problem for future consideration.

9. The means of separating the tuberculars from the nontuberculars is at the present time a question of vital importance.

10. That there have been recently observed in this Asylum and other institutions cases of pellagra, a disease common in Italy, but new to our country.

11. With a population of 50% more than we have adequate accommodations for, all departments of the institution are excessively overcrowded and especially that of the white men, and the two colored departments, and the housing of insane of negro men and women in the cellars, as we are forced to do, is, to say the least, inhuman.

12. The excessive population overtakes the kitchen and dining room service as well as the wards and dormitories.

It seems to me that the policy here advocated is one upon which we can all agree. It does not call for any financial sacrifice on the part of the State, in the sudden abandonment of the old institution, nor does it introduce any novel or extravagant plans for the future. It merely calls for the development of the institution upon lines of slow development which will be well within the means of the State.

As to the sale of any of the State Hospital land in and near Columbia, that seems to me a question for the General Assembly.

My personal opinion, however, is that the State should not part with any of the land it now owns here. Looking to the future growth of Columbia and the needs of the State all real estate now held in the name of the State will be required for its needs at no very distant time. Most of this land the State has acquired at comparatively little cost. If this land or any part of it is sold at this time, the State will have to purchase land for its urgent needs in Columbia at very high prices. To hold all this real estate for the uses of our successors is an obligation we owe posterity.

PELLAGRA.

We now have the statistics on pellagra for six years. While these figures are not large enough to enable us to reach final conclusions they deserve to be recorded separately. The total admission of pellagrins is about 900.

PATHOLOGIST'S REPORT.

January 1, 1914.

Dr. J. W. Babcock, Superintendent, City.

Dear Doctor: I beg to hand you herewith report of the work done in the laboratory from July 1st to December 31st, inclusive, 1913:

Hemoglobin tests	57
Erythrocytes counts	77
Leucocytes counts	93
Differential counts	78
Examinations for malaria	84
Widal	13
Urine, chemical examinations.....	218
Urine, microscopic examinations	118
Feces, examination of	14
Fluids, examination of (other than sputa).....	7
Sputa, examination of.....	7
Gonorrhœa, examination for	1
Wasserman Tests for syphilis.....	6

In addition to the above I have been in consultation with the assistant physicians several times; have relieved them on several occasions, and have assisted in operations, and given anesthetics.

Yours very truly,

R. G. BLACKBURN,
Pathologist.

REPORT ON FIRE PROTECTION.

Columbia, S. C., January 9, 1914.

Dr. J. W. Babcock, Supt., and the Board of Regents, Columbia, S. C.

Gentlemen: I have inspected all facilities for fighting fires at the Asylum, and I find them all in good condition, with the exception of a few minor suggestions, to which I wish to call your attention:

1st. I find no axes in any of the stations, and I recommend putting a regular fireman's pick axe in each station.

2d. In the Parker Main Building I find the hose detached from stand pipe, and it will be necessary to have these stations enclosed as the others are, so the patients cannot tamper with them.

3d. The laundry building hose should be replaced with new hose, and there should be placed between the Parker Building and the laundry (in the yard) a hydrant with at least 250 feet of 2½-inch hose attached with nozzle, and a house built over same for protection. I consider this very important, for, if there should be a fire inside of laundry building you would be better equipped for fighting flames, as it would be almost impossible to get the hose on the inside of the laundry.

4th. There should be a stand pipe on the storehouse building and 2 stations on each floor, or there should be 250 feet of 2½-inch hose with a ¾ tip on nozzle, attached to hydrant outside of building.

5th. I find there are no stations in the basement floor of the male department center building, and I recommend one station with 200 feet of 2-inch hose to be put there.

6th. I find in center building, 7th ward, new hose are needed.

7th. In Parker Building "annex," 1st ward, north end, new hose are needed.

8th. I advise the 1-inch hose in the old asylum be taken out and be replaced with 2-inch hose, for I consider the 1-inch hose worthless in case of fire.

6th. I find in a great many of the stations where the hose are kept, trash is allowed to accumulate, and I suggest that they be kept clean, and the hose properly straightened out in the hose racks.

I find in most instances where the pipes come up through the floors holes around them; this should be stopped up with cement, so no draught can come up.

I find most all the valves corroded; these should be cleaned and oiled and kept in good condition.

And all the hand extinguishers should be recharged and polished, and kept in good working order.

The most important thing I wish to call your attention to, is the dead end of the 10-inch water main at the corner of Barnwell and Calhoun streets. This main should be extended on to Richland street, so as to make a complete circle, for I am satisfied that in case of a fire where we would have to use the fire department engines, we would be handicapped in getting a sufficient volume of water.

Very truly yours,

W. J. MAY, Chief, C. F. D.

FARM AT STATE PARK.

Columbia, S. C., January 4, 1914.

Dr. J. W. Babcock, Supt., Columbia, S. C.

Dear Sir: The work on State Park farm for the past year has been satisfactory, though the crops were short on account of the continued dry and hot weather. From April 15th to September 16th, we had very little rain, but had a fine fall to gather the crop, put in small grain and prepare land for the crops of 1914.

I experimented with upland rice, but don't think it will pay on State Park until we have more of the swamp land cleared and prepared for cultivation. I am sure that the Irish potatoes planted after oats will pay and I have twelve to fifteen acres in oats on land that I think adapted to Irish potatoes, and that I hope to plant in Irish potatoes this year. I have done a great deal of work in taking up stumps, building roads, etc. The dry weather made pasture a failure for fattening cattle.

I have had an average of 23 colored male patients, most of whom work well. They have been in good health and are satisfied to be out on the farm in the country.

Enclosed is statement of produce on hand and delivered to State Hospital for the Insane in Columbia, 1913.

Very truly yours,

W. H. WYLIE,
Supt. of Farm.

RECEIPTS.
